**Ventura Water's
Smart Sprinkler Controller Installation Program
Agreement and Release Form**

The customer named below is interested in reducing water consumption on the property located at the address below (Property), and hereby requests the assistance of Ventura Water, City of San Buenaventura (Ventura) by participating in the Smart Sprinkler Controller Installation Program (Program). It is the customer's option to participate in the Program. It is the customer's responsibility to maintain a properly working irrigation system after the installation has occurred. The customer is required to keep the controller for a minimum of 5 years or replace it with a similar smart controller. A post inspection performed by Ventura staff may be required.

In exchange for the anticipated benefit from participation in the program, this agreement gives trained controller installers from WaterWise Consulting, Inc. (WaterWise), on behalf of (Ventura) permission to enter the customer's property for the purpose of conducting the installation. The customer understands that the Smart Sprinkler Controller selected by Ventura, for this program, functions by use of a wireless internet connection. Customer hereby agrees to fully cooperate with the installer, which includes connecting the controller to the wireless router. In order to secure the privacy of the customer's password, the installer shall ask for the customer to enter his network password. If the customer chooses to reset the password, the customer must go into the settings of the controller to reset the password.

The customer hereby agrees to release, defend, indemnify, protect, and hold harmless Ventura, and WaterWise, and their respective board members, directors, officers and employees, collectively, (the "Indemnitee") from, and against, any and all claims asserted or liability established for damages or injuries to any person or property arising out of or resulting from the acts or omissions of the Indemnitee, or the condition of the Property; provided, however, that the customer's duty to indemnify and hold harmless shall not include any claims or liability arising from the sole negligence or willful misconduct of the Indemnitee in performing the work. WaterWise will provide a 30 day guarantee following installation.

The customer recognizes that participation in the program does not constitute any representation or promise of any cost savings or results of any nature whatsoever and the customer hereby fully releases the Indemnitee from any and all claims or liability in connection with the program or the acts of the Indemnitee relating to the program.

Furthermore, Indemnitee is not responsible for controller data corruption or its security, therefore it recommends that customer reset his router password soon after installation. Any issues with data privacy should be addressed with the controller manufacturer.
